First Author

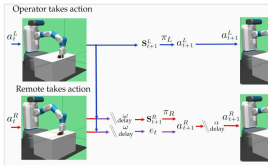

ICRA 2025

Efficient Neural Lyapunov Function Approximation with Off-Policy Reinforcement Learning

L. McCutcheon, B. Ghahsifard, S. Fallah

Learns neural Lyapunov functions via off-policy RL to jointly optimize control performance and stability guarantees.

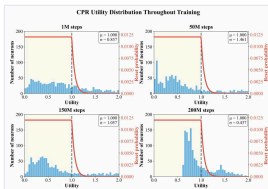

IIROS 2023

Adaptive PD Control using Deep Reinforcement Learning

L. McCutcheon, S. Fallah

Uses model-based RL to dynamically adapt PD controller gains online, improving robustness over fixed-gain controllers.

UNDER REVIEW

Preventing Policy Collapse in Continual Reinforcement Learning

L. McCutcheon, E. Chatzaroulas, S. Fallah

Proposes a method to maintain plasticity and training stability in continual RL, preventing policy collapse across sequential tasks.

Co-Author

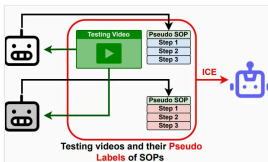

ICML 2025 WORKSHOP (SPOTLIGHT) & NEURIPS 2025

Meta-World+: Towards a Scalable Multi-Task Reinforcement Learning Benchmark

R. McLean, E. Chatzaroulas, L. McCutcheon, F. Roder, T. Yu, Z. He, K.R. Zentner, R. Julian, J.K. Terry, I. Woungang, N. Farsad, P.S. Castro

Implemented multi-task optimization baselines including PCGrad and conducted large-scale training for MT10 and MT50 benchmark experiments.

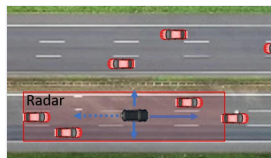

NEURIPS 2024 WORKSHOP

Exploring In-Context Ensemble Strategies for Reinforcement Learning

M. Xu, E. Chatzaroulas, L. McCutcheon, A. Ahad, H. Azeem, J. Marecki, A. Anwar

Supervised the project and developed the Gemini experiment pipeline.

ITSC 2022 — IEEE INTL. CONF. ON INTELLIGENT TRANSPORTATION SYSTEMS

Prediction-Based Decision Making for Autonomous Vehicles

M. Yildirim, S. Mozaffari, **L. McCutcheon**, M. Dianati, A. Tamaddoni-Nezhad, S. Fallah

Implemented noisy neural networks, the highest-performing component of the RAINBOW agent.

Reviewing

I serve as a reviewer for the following venues:

- ▶ **ICLR 2026** — International Conference on Learning Representations
- ▶ **NeurIPS 2025** — Conference on Neural Information Processing Systems
- ▶ **TNNLS 2025** — IEEE Transactions on Neural Networks and Learning Systems
- ▶ **IROS 2025** — IEEE/RSJ International Conference on Intelligent Robots and Systems
